

✓ Belin at supper - not 55 men at 7:00  
CIA - had intel diff  
He found Ruby lit - detecter test  
Spencer did because he was there  
Belin did through cable - was  
held back but succeeded after  
conviction

CIA commission - prove up how  
corruptive CIA was - offered  
many things to do the same  
matters but nothing more.

Turn + was allowed to look at P. 4  
in Abzug's office - made notes  
of himself + inquired one to  
me. (I was an insider on Bradley  
Annals), Abzug to marry it  
dead of yet - in anti - Kennedy  
sense, drawing his letter to

<sup>2</sup> In a hall in "Poyalty"  
pictures he saw - no answer  
in when it was. Date p. 399  
from here. But why  
be afraid - any thing  
sticks to his back - all his  
sympathies as though any  
was audible - didn't even  
deny any thing. I said about  
him a him a man -  
Instructions except that the  
walk would be shorter but  
did not deny in 17:45  
made Mark him for  
little is not too

3) In general, if you say something  
is left what he said & bullet  
proofs involved with rights &  
specimens & N.F.A. much

nothing  
When he accused me of un-  
willingness I took on each  
of his charges - lies - as a  
point of personal privilege  
& documented each one. He  
had no response. When  
he did not I said I'd  
await his apology. He did  
not.

6. The man is more psycho  
more unthinking than  
thought made. Impervious  
to reason - unimpaired  
by any thing. Never responds,  
never blinks - only hidden  
high self control - only he knows  
I asked him to join me. He said  
every thing should be released.  
I said some should not but  
~~some~~ ~~some~~ more. He said  
would like to have argu-  
ment & the country would  
have more. Why not full  
investigation? He said he  
made statement ~~in~~ in few  
days

5/ At end, finally, I had to tell  
him I had worked longer for  
him than I had for anyone else, & in  
what I hoped he would take  
as a friendly, private  
suggestion I urged him to  
be extremely careful about  
what he said. He started to  
say what I think would  
have been that he knew more &  
then changed & said only as  
he turned & walked away  
"You're wrong."

Question: Why did Belin  
interject the CIA and the  
fact that there was a CIA  
Office in Dallas at the time  
of the Assassination when  
my question specifically  
referred to 3 ~~secret~~ sightings  
of Secret Service agents  
in Dealey Plaza and if this  
IMPOSSIBILITY was ever reconciled?

No answer to my question and  
his answer was non-sequitor  
ramble about Spooks being  
places?! Was the inference  
(as I immediately interpreted it)  
that the SS were actually  
on the spot CIA because

that added more to my curiosity.  
He, in fact, didn't mention S.S.  
at all in his answer and  
more so, it all seemed  
related to Rockefeller Commission!  
What does he mean?
